

30 MINUTE PRIVATE LESSONS

Beach City Tennis Academy recognizes the need for 30 minute Private Lessons whether our players are busy professionals, retired, or have limited cardio vascular mobility but still want to stay active. Therefore we have created highly effective skills based progressions that optimize the ½ hour and deliver results.

The benefits of the 30 minute Private Lessons are great for beginners as well especially as a gift or a trial without a larger financial commitment. With several convenient locations, we can easily accommodate most player's needs on the Westside of L.A. All of the Tennis Pro staff at Beach City Tennis Academy are well versed in addressing special needs and handicaps that might otherwise impede or restrict a players' development.

It is important to note that a player can expect one on one attention in the 30 minute Private Lesson format concentrated on instruction rather than rallies. Players are required to do more outside homework than other lesson formats because of time limitations.
