

GRAND SLAM CLINICS

Our Grand Slam (GS) Clinics are by far the most competitive and strictly for advanced junior players who have at least 4.0 NTRP ranking. Tournament and Varsity players are encouraged to train with our USPTA Elite certified coaches who specialize in High Performance training. The clinics average between 4-6 players so the coach to player ratios are as individualized as possible. GS athletes will learn footwork, net play strategy, speed/agility, and more.

Junior "Doubles Team" athletes from across the westside of L.A. compete in our weekly GS clinics to play against other doubles players and learn from each other. Knowing the opponent's strengths and weaknesses often better prepares athletes for matches especially in cases where they aren't receiving the proper training from their local High School coaches.

GS Clinics are also a great way to offset training in preparation for tournaments since our GS Clinics are offered year-round. We recommend our GS athletes obtain a USTA tournament ranking as soon as possible so they can get apply for scholarships through the USTA as well.
