

## YOUTH GROUP TENNIS LESSONS

Beach City Tennis Academy's most affordable option for improving a player's tennis game is through our group lessons. The benefit of the academy based group lessons allow students to receive more individualized instruction while sharing the cost with friends and family. All group lessons range in size from 3-4 players in Santa Monica. We can facilitate larger groups in Manhattan Beach if needed.

Like our Private and Semi Private lessons, students of all skill levels will be taught by an Elite USPTA certified, professional so they are assured of getting the highest quality of instruction. Students will learn the same skills as taught in our private lessons. Group lessons also allow players to benefit from learning alongside one another which can sometimes improve skill levels faster.

Although it is strongly encouraged that organizer of the group coordinate their group of similar skill levels (beginner, intermediate, advanced), we do keep a waiting list of players with variety of skill levels to assist in starting a class whenever available. We offer group lessons for youth, junior, and adult players. Our group lessons are co-ed however and we recommend that organizers try to keep their group within an appropriate age category to get the most out the group lesson.

Alternatively, we offer other programs that can accommodate a mix of ages. The focus of group lessons is primarily intended to provide instruction with some game play. Each group lesson builds upon the previous week's lesson so practicing what you have learned in between lessons will improve your game faster. Homework will be assigned at the end of each lesson and it's the responsibility of the player to take upon themselves to practice when they are not taking a lesson.
